Code setting guide for Dogtra 4500 EDGE / 4502 EDGE / 4503 EDGE / 4504 EDGE

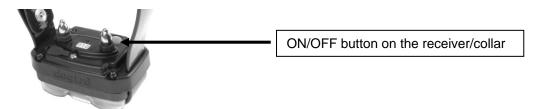

MODE Selection Dial on top of the transmitter

1. Start with the receiver/collar turned off and the transmitter turned on. Select the "**C**" position with the Mode Selection Dial on top of the transmitter.

Intensity Selection Dial on top of the transmitter

2. Select the intensity level **0** with the intensity selection dial.

ON/OFF button on the receiver/collar

3. Hold down the On/Off button on the receiver/collar for several seconds, until the green LED on the receiver/collar starts to blink rapidly, and then release the button.

4. Hold the transmitter button corresponding to the desired receiver/collar ***** down for 3 seconds or until the rapid green blink of the LED on the receiver/collar resumes a slower pace. The code setting work is now completed.

* Example: Hold down the BLUE transmitter button to code it with the BLUE receiver/collar.
